

CHANGE IN FILE STATUS
APPROVAL FORM

DATE June 30, 1987

CURRENT FILE NO. DOE/037/018

RECOMMENDED FILE NO. Closed

COMPANY AND MINE NAME Cotter Corporation, Access Road Improvement

REASON FOR CHANGE IN FILE STATUS

In 1979, Cotter Corporation improved an existing road on the Manti-LaSal National Forest so that they could access a set of claims in Colorado.

The road was approximately two miles long and snaked back and forth from the Colorado to Utah side. The Forest Service was also notified and it is presumed that the matter was handled to their satisfaction.
